Your  
free  
smear  
test

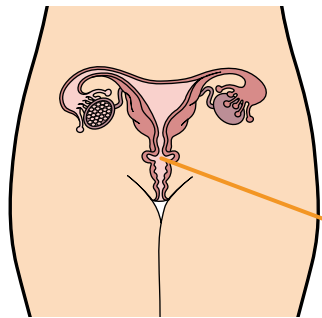

**Cervical screening saves lives.**

Every woman aged between 25 and 60 years should have regular smear tests. These will help you and your doctor or nurse make sure the neck of your womb (cervix) is healthy.

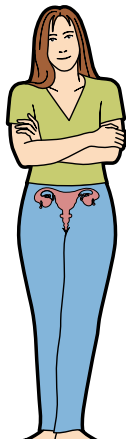

**CervicalCheck offers free smear tests:**

- every 3 years to women aged 25 to 44, and
- every 5 years to women aged 45 to 60.

Neck of the womb (cervix)

A smear test takes a sample of cells from the neck of the womb.

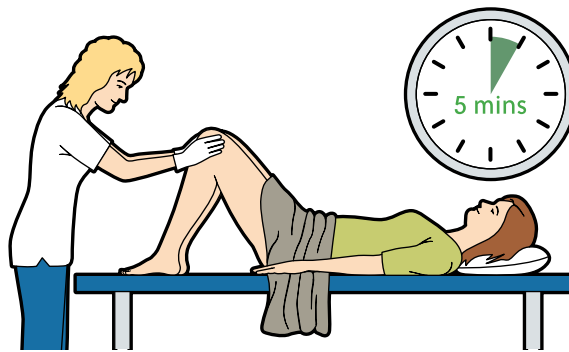

You will be sent a CervicalCheck letter inviting you for a free smear test or you can make an appointment.

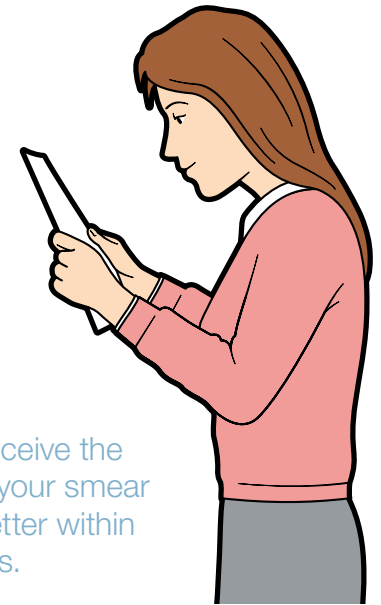

**It's free**

You do not need to pay for the test.

The smear test is very simple and takes less than 5 minutes. It may be slightly uncomfortable, but it should not be painful.

You will receive the results of your smear test in a letter within four weeks.

If you have any questions about your results, you can talk to your doctor or nurse.
